Profile Summary

As a passionate Information Science Engineering student, I bring a strong foundation in programming languages like Java and Python. With a keen interest in software development and problem solving, I'm always looking to explore new technologies and collaborate on innovative projects.

Education

R R Institute of Technology, Bengaluru ,B.E.– Information Science & Engineering Dec 2022 – Present

- GPA: 7.6/10

Y.T.S.S PU College, Yellapur

2020-2022

– Percentage : 70.83

Projects

Heart Disease Detection

- Developed predictive models for early heart disease detection using clinical and biometric data. Optimized model accuracy through hyperparameter tuning and feature selection. Integrated real-time alert mechanisms for risk assessments. Conducted statistical analysis and visualization to interpret model results effectively .

Soldier health and position tracking

- Real time health monitoring tracks vital signs such as heart rate,body temperature and oxygen. Position tracking utilizes GPS tp pinpoint the soldier's exact location. Send alert to medical personnel in case of health emergencies. Enhanced safety enables quick responses in emergency situations.

Technologies

Programming Languages: Java, Python, C, C++

Web Technologies: HTML, CSS, JavaScript

Databases: MySQL

Tools & Frameworks: Git, Jupyter Notebook

Business Tools: MS Excel, Power BI

Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, Software Development Lifecycle (SDLC), IoT

Soft Skills: Leadership, Team Collaboration, Problem-Solving, Communication, Adaptability, Time Management

Certifications

Java Programming (Udemy), Python for Everybody (Udemy), Database Management with MySQL (Infosys Springboard) ,

Participated in the workshops that are actively enhanced with skills on AI for Students that is Built for the own generation AI Model.
